

## Project Proposal:

Name: **Sirish C Bitra**

NetIDs: **sbitra2**

Captain: **Sirish C Bitra**

Team Type: **Individual**

**Planned Competition:** Text Classification Competition: Twitter Sarcasm Detection.

### **Proposal:**

Currently, I'm going through the GloVe model with my Technology Review assignment and doing some research on how it suits with the Text classification competition.

I believe with the use of neural network classifiers like Bi-directional LSTM with GloVe Embeddings I can achieve the expected results with this competition.

**Prior Experience:** I don't have any prior experience in any of these models.

**Programming Language:** Python
